

## Give a bunny a loving foster home

[Foster Application](#)

Fostering gives bunnies in need a comfortable, quiet environment where they can enjoy a home-like setting while waiting for a forever family. It also gives us extra time and space to rescue more rabbits! Fostering is also a wonderful way to test out bunny parenthood or to make sure a companion for your current rabbit is a good fit.

We ask that fosters be located near Nampa, Idaho and be willing and eager to learn proper rabbit care. Foster bunnies may not be kept in a small cage or left unsupervised with children under the age of eight, and must be given free-roam time daily.

If fostering a rabbit sounds right for you, then please fill out a foster application. Once approved, you can [book a foster appointment](#).
